Neuropsychological Rehabilitation

The International Handbook

Edited by **Barbara A. Wilson**, United Kingdom, **Jill Winegardner**, United Kingdom, **Caroline M. van Heugten**, The Netherlands and **Tamara Ownsworth**, Australia.

"This book is a milestone in neuropsychological rehabilitation – a truly comprehensive assembly of state of the art clinical practice with the best science, written by the world leaders in the field. There is no other book like it anywhere – how I wish something like this had been available when I began to work in neuropsychological rehabilitation more than 30 years ago: its breathtaking comprehensiveness, sound practical advice and scientific integrity make this, quite simply, a classic."

- Professor Ian Robertson, Co-Director, Global Brain Health Institute, Trinity College Dublin, Ireland

This outstanding new handbook offers unique coverage of all aspects of neuropsychological rehabilitation. Compiled by the world's leading clinician-researchers, and written by an exceptional team of international contributors, the book is vast in scope, including chapters on the many and varied components of neuropsychological rehabilitation across the life span within one volume. This is a landmark publication for neuropsychological rehabilitation. It is the standalone reference text for the field as well as essential reading for all researchers, students and practitioners in clinical neuropsychology, clinical psychology, occupational therapy, and speech and language therapy. It will also be of great value to those in related professions such as neurologists, rehabilitation physicians, rehabilitation psychologists and medics.
